

## NEW! Order by text message right from your table!

This venue offers a new service that lets you order anything on this menu by sending a simple text message (SMS) from your mobile phone.

### Identification

Every table in the venue has a *table identifier* of the form T1, T2, T3 etc. You find the identifier on a sticker on your table.

Every item on the menu has a unique 3-character *item code*, which you find right next to the price. For example, a bottle of Heineken beer has the item code BHB:

Bottled Beers	Price CHF	Item Code
Heineken 0.33l	5.90	BHB
San Miguel 0.33l	6.50	BSM
...	...	...

### Message format

In your order message please put the *table identifier* first, followed by the keyword *order*, followed by one or more *item codes*. You can put a number before an *item code* to order more than one serving of a menu item.

Sample text message order: **T99 order BHB 3BSM**

This means that table 99 is ordering one bottle of Heineken and 3 bottles of San Miguel beer (there is no need to worry about upper case or lower case characters in your message).

### Phone number

Please send your text message orders to the following number: **+41 77 259 88 74**

This is a normal Swiss mobile phone number. There is no premium surcharge. Regular text message costs apply as per your price plan.

### Confirmation

You will receive a response message within a few minutes to confirm that your order was successfully received. A waiter will bring your order directly to your table as fast as possible. In case you don't receive any reply message within 10 minutes, please contact the service staff.

### Payment

Please pay in the normal way directly to your waiter. If you wish, you can also request the bill for your table by text message – independently of how you ordered. For this purpose please use the code *BILL*. For example: **T99 order BILL**

This service is powered by Qvolution, a solution from Genartis GmbH.
